

Essay by Avgustin

## MY TOWN

My town is a great place to live, but there are a few problems here too. Firstly, the air quality is not good. Secondly, there is a lot of litter on the streets and in the public transport. And thirdly, there is a little of crime.

If I were a mayor, I would encourage people to cycle or walk, if there are no long distances, to reduce air pollution, I would build more bike roads for that. But if the distance is long, I would encourage people to share cars. To make streets cleaner, I would provide more dustbins. And also, I would fine people for littering. To reduce crime, I would put more CCTV cameras and I would encourage people to inform the police if they saw crime.

In my view, this would make a big difference to life in my town. But if I could only do one thing, I would encourage people to cycle or walk because air pollution affects everybody's health.
