

Essay by Nonita

MY TOWN

My town is a very great place with lots of pretty and interesting places to visit , but every town or country has their own problems so I'm going to tell you about the biggest problems in my town. Firstly, there are quite a lot of homeless people about 800. Secondly, traffic is very bad. And thirdly, it's litter.

2. If I were a mayor, each week I would give homeless people some money for food and clothes and after that they might have a job. To stop traffic I would change job times so every person could have time not only to dress up but also get to work. Then to make the streets cleaner I would ban throwing anything on the streets and if people give them penalty.

3. In my opinion it would really change our town by making it not only cleaner, but also make a good environment for everyone.

Traffic

Homelessness

Litter
